NO CHILD IS ILLEGAL

MORE DATA ON EVERY CHILD IN ENGLAND, STORED FOREVER...

The school census collection is changing from October 6th 2016. These changes will affect ALL schools and EVERY child age 2-19 in England.

NEW information about children's Country of Birth, Nationality and Ethnicity will be added to the National Pupil Database which can be accessed by the Home Office.

WHAT CAN PARENTS AND SCHOOL STAFF DO?

- 1) Parents/carers/pupils do not have to give this information
- 2) School staff can record not yet obtained, not known or refused
- 3) Raise the issues with your child's school, teachers, staff and governors
- 4) Write to your local Councillors & MP to express your concerns

ALL CHILDREN SHOULD BE SAFE AT SCHOOL

We believe children's personal data should not be used for immigration enforcement (or given to the press). Post-Brexit we see growing anti-migrant rhetoric and increasing violence daily. In a world where the ex-Minister for Education is pushing plans to tackle "education tourism", we are very concerned that the collection of this data will make life even more difficult for migrants and their children, risking discrimination and creating fear.

IT'S NOT TOO LATE TO STOP IT

Even if you have already submitted information to you child's school, it's not too late. You can change your mind at any time before the census is submitted and instruct the school to withhold the data. The Autumn Census will be taken on 6th Oct. Country of Birth extraction begins from the 19th Jan 2017.
